

RONDEBOSCH BOYS' HIGH SCHOOL

12 December 2014

Testimonial – IP CCTV System, Intervid/United Business Solutions

To whom it may concern,

Mr. Clinton Banfield and his team have delivered and successfully implemented an Internet Protocol (IP) based CCTV solution installed at Rondebosch Boys High School ensuring additional measures were in place to safeguard our school campus during the course of this year.

52 IP cameras were installed by his highly professional team and positioned on 24 hour surveillance, directed at the school perimeter, canal, car park, walkways, public access points to classrooms, corridors, gates and other strategic access areas.

The complete solution provided by Intervid, included thirty-one Hikvision (1.3mp) outdoor cameras, eight (3mp) vari-focal bullet cameras, eleven (1.3 mp) mini-bullet cameras, and two long range external cameras. The system included the Hikvision 7700 series NVR storage and server solution.

We would like to compliment Mr. Banfield on his exceptional attention to detail and quality management of multiple stakeholders ensuring that the project was delivered on time, within budget, and to the specifications of our school community.
